ProBand Fineline Tapes

New generation tapes for Solvent & Waterborne paint

Tech Tips

1. Pull enough tape off the roll to work with, do not move your guide finger while unrolling. (This will keep the tape's width consistent without over-stretching.)
2. In tight turns, finesse it through the curves, let it flow by itself. (It will easily wrap around the edges and contours.)
3. Be careful not to "nick the edges" while laying out design. When cutting though, apply light force. (It is softer than other fineline tapes allowing for the perfect cut.)
4. Always seal the edges. (This will prevent paint seepage, bleed through.)
5. Apply the tape at ambient (68° - 78°F / 21° - 24°C) temperature. (Extreme cold will shrink it, extreme heat will expand it.)

Crepe Paper Tapes

K-UTG Gold Tape

Extremely thin, semi-translucent tape with heat & UV resistant acrylic adhesive. Tape can be lifted and repositioned without leaving any residue. Ideal for work on difficult surfaces, two-toning, color separation, airbrushing, and many other production and custom painting applications.

PT43 Performance Tape & PT43 Micro-Tape

PT43 is a single coated, stabilized crepe paper (Cross linked rubber based adhesive), with a very thin/sharp lacquer edge for exact color separation, while painting long, straight lines. The tape is flexible for design work in curves, radius areas, and on uneven surfaces such as guitars, helmets, miniature model cars, boats, airplanes...

K-TM21 Trim Edge Tape

A high quality precision masking tape with built-in plastic insert strip, for applications with flush mounted seals, and mouldings around; windshields, sunroofs, back/side glass, front/rear tail lights.

Production Masking Tapes

Custom Refinish Tape

Semi-transparent, low profile masking tape. Excellent handling & cornering, clean paint lines with low profile paint build & no adhesive transfer or residue.

Superior resistance to humidity, solvent & waterborne base coats. Ideal for variable temperature applications.

Best suited for custom paint work, masking around graphics & detail work.

Provides secure adhesion to both painted & bare metals, plastics and other surfaces. Resists paint flaking from top side.

Recommended for professional body work and protective masking applications in automotive, industrial, aviation & marine industries.

Premium Production Tape

Professional quality, smooth creped, masking tape with natural rubber, heat resistant adhesive for production application.

Excellent handling & cornering, clean paint lines with no adhesive transfer or residue.

Good resistance to humidity, solvent & waterborne base coats. Ideal for variable temperature applications.

Pro-Mask Maskers

ProMask "2 in 1" combined coated paper and high temperature masking tape offers Quick & Easy solutions for big, and small masking jobs.

ProMask maskers offer Quick & Easy solutions while masking bumpers, door-jambes, head-lights, tail-lights, and other small car parts.

Plotter Ready Masks

Ideal for custom paint work, complex graphics designs, stencil work, airbrushing and more.

Gold Mask™

Gold Mask™ is a professional quality, extremely thin, flexible, semi-translucent tape with easy release paper backing.

Gold Mask™ is ideal for custom paint works, complex graphics designs, airbrushing and lots more.

The tape cuts clean with sharp edge. It can be lifted and re-positioned without leaving any residue. It is UV and solvent resistant.

Temp. resistance 1h/100° C (212° F)
UV-resistance: up to 6 months

Green Mask™

Green Mask™ is a professional quality, extremely thin, semi-translucent, flexible, vinyl mask with easy release paper backing.

Green Mask™ is ideal for custom paint work, complex graphics designs, airbrushing and lots more.

The mask cuts clean with sharp edge, clean removal without residue. It's solvent and water resistant.

Temp. resistance 1h/130° C (266° F)
UV-resistance: limited

Blue Mask™

BlueMask™ is a professional quality, extremely thin, flexible, vinyl mask with easy release paper backing.

Blue Mask™ is ideal for custom paint work, complex graphics designs, airbrushing and lots more.

The mask cuts clean with sharp edge, clean removal without residue. It's solvent and water resistant.
