Re-usable, nylon MP type of coverall Category III/CE 0121/Type 5 + 6

Pro-Plus GARD, rip-stop blue and gray (High tear strength), white (Excellent liquid repellency) and micro fabric (Unique comfort technology). There is limited heat and moisture build-up, even after wearing it for long periods of time. Thus, secure protection is combined with optimal wearing comfort. Pro-Plus GARD coveralls are well suited for work in mechanical and auto paint shops, protection against light paint overspray.

Disposable type of coverall Category III/CE 0121/Type 5

Pro-Plus GARD, SMS coverall is manufactured using innovative "In-line" process, consisting of a 3-ply SMS material. There is an additional layer, permeable to air and (Melt-blown) between two rugged exterior layers of polypropylene that acts as a filter membrane. This insures comfortable breathing activity, in spite of the absolute dependable dust-blocking effect. There is no heat or moisture build-up, even after wearing it for long periods of time. Thus, secure protection is combined with an optimal wearing comfort. Pro-Plus GARD coveralls are particularly well suited for work in auto paint and detail shops, contamination sites/heavy dust environment.
